Sponsorship Opportunities

Public Sector AI 2019 provides more great opportunities for networking and interaction with delegates as we look to continue the growth of this key event. Sponsors will benefit from a unique opportunity to establish, build and develop existing relationships through networking, showcasing expertise and engaging in interactive debate regarding implementation of AI in the Public Sector.

Exhibition

Exhibiting at Public Sector AI offers an unmissable opportunity to showcase your solutions to potential key client contacts who attend to gather information that supports their investment decisions.

Our exhibition packages allow your organisation to engage with senior ICT and Digital Transformation professionals from public services across the country.

The Demo Zone option gives you an opportunity to engage with the audience at your stand, lasting 20 minutes your presentation takes place straight after the lunch break, seating for 15 delegates will be provided along with standing room for other delegates.

Interactive Panel Sessions

An opportunity for delegates to focus on specific areas of Public Sector AI, delegates will have the chance to explore how services can be delivered more efficiently and effectively. Our themed panel sessions give delegates a chance to break into smaller groups to discuss shared objectives with a view to creating a strategic plan for AI implementation.

Product Experience Sessions

A chance for delegates to spend time with the exhibitors, to gather key marketing insight to support their decision making. Delegates will be able to get hands on experience with the solutions, receive bespoke demonstrations that align with their requirements.

AI - Campfire Sessions

Led by industry innovators, delegates will have the chance to pre-register for two of the three

campfire sessions which will see experts from the sector presenting a recent case study followed by interactive Q&A.

Be prepared to get involved as these sessions are all about shared learning and overcoming common challenges.

AI In Action - 4 x 10 Minute Lightning Presentations

A high paced end to the day, delegates will get an insight into four examples of Public Sector AI implementation that have seen success. This session is focused on practical examples, projects that you can look to replicate in your organisations. The outcomes from this session will influence your AI strategy.

Sponsor Packages

There are opportunities for key partners to benefit from a variety of engagement and branding opportunities throughout the summit. These packages can be tailored to clients specific requirements and to discuss opportunities further, please contact Customer Service on 0207 593 5500 or at customer.service@dodsgroup.com [1]
